ICP-4 LOADING CONVEYOR

**AUTOMATIC WEIGHING INCLINED CONVEYOR WITH
4 COMPARTMENTS OF 50 kg (110 lbs.).
APPROPRIATE FOR LOADING A BATCH WASHER.**

The ICP-4 loading conveyor is the appropriate element to load a batch washer in a simple precise manner. The operator puts the linen in the first compartment. The weight is then displayed on the control board and on the colour-coded light panel. The washing program and customer number is introduced on the control board.
